

HANALEI

BENETEAU FIRST 41S

PRESENTED BY EZIYACHT

BACKGROUND

Renowned for their build quality and equipped for long distance passage making, this Beneteau First 41 has been set up for liveaboard cruising. Arguably the perfect size to live and sail aboard, this yacht has three generous cabins, two heads and a lovely homely interior. Her current owner has owned the yacht since 2018 and recently completed an extensive re-fit.

The cockpit has been fully canvassed with bimini, dodger and full overhead sun protection, and the vessel provides great access when alongside or while on a mooring thanks to a stepped transom sugar scoop stern and side gates.

The yacht has been rigged to sail comfortably short handed by adding an electric winch close to the helm. She would equally appeal to a solo sailor with a remote cockpit anchor winch, boom brake, 2x plotters, 2x auto pilots, and all round netting and canvas.

The yacht carries 600 litres of water and is fitted with a hot water cylinder with internal and cockpit hot/cold showers.

Hanalei was recently re-powered with a reconditioned Volvo Penta 50hp diesel which runs efficiently and is serviced regularly. She has 5 new batteries (with an output of 40 amps), 3 x new solar panels and regulator.

Navigation systems include a Raymarine chart plotter and autopilot, and a new Course master autopilot and Garmin colour chart plotter (fitted in the cockpit) with AIS transceiver.

Rigging was replaced by the previous owner approx 5 yrs ago with new running rigging replaced in 2021.

On Deck

UNDER SAIL

Under sail Hanalei promises fast passage making for single or short handed sailing. All sailing lines and halyards are controlled from the cockpit with clearly labelled jammers and deck organisers. With roller furling headsail, single line reefing, a boom brake and spinnaker pole for down winding, sails can be controlled with ease thanks to a newly fitted 2xspeed electric winch.

COCKPIT LAYOUT

The cockpit has been fitted with all new canvas side panels, bimini, link sheet, dodger with polycarbonate clears. All around pet/child safety netting with canvas panels surround the cockpit. With German mainsheet system there is no traveller. A teak table opens for entertaining and Hanalei offers easy access to and from the water thanks to her open sugar scoop transom with steps and boarding ladder.

HIGHLIGHTS & FEATURES

- Arco electric 2-speed multi purpose winch
- Course master Autopilot (both autopilots operate independently but share the same linear drive ram)
- Garmin & Raymarine Chart Plotters
- 3 x 188w Solar Panels and regulator
- Single line reefing
- TV/DVD
- Interior (blue) upholstery on all cabin cushions
- White vinyl lounge covers
- AIS
- Boom Brake
- Cockpit windless remote control
- All canvas (navy): boom bag, cockpit covers, aft railings, winch covers, hatch covers etc.
- NSW Gas Compliance Certificate

Interior

There is so much room for a family or up to 3 couples aboard Hanalei with a generous sized galley and plenty of room for everyone to sit around the folding saloon table for meals, movies or games. Beautiful contrasting light and dark with lots of natural light flood through overhead and large opening ports. Plush new white leatherette sofas have been newly fitted to compliment the mahogany veneer.

ACCOMODATION

The forward cabin has a large V-berth with its own ensuite, shower and vanity. An overhead hatch provides light, ventilation and access to the foredeck. There are all round shelves for personal belongings. Two double cabins aft; each with vanity and shared access to the second head and shower. An additional single berth with lee cloth can be made up in the saloon.

All cabins are ventilated with opening ports and fitted with LED overhead and reading lights. All mattresses are fitted with new custom covers.

THE GALLEY

The L-shaped galley is fitted with twin s/s sinks, marble countertops and ample cabinet storage and dedicated refuse compartment, a twin burner Broadwater stove and cockpit BBQ. The deep 12v fridge / freezer operates from a Danfoss compressor and thanks to more than sufficient solar energy can remain running all the time without fear of draining the batteries.

NAVIGATION

A generous sized navigation station is opposite the galley with large chart table and rotating skipper's chair. There are ample charging ports with LED overhead downlights and wrap around sliding door cabinets for storing personal belongings and safety equipment. Raymarine C80 plotter is linked to course master autopilot. AIS is linked to Garmin and tablet. Electric bilge pumps x 2 – the high water electric bilge pump is fitted with a float switch.

She could be YOURS ...

There is so much to love about this yacht from her size and stability to her cheerfully bright and inviting interior which welcomes you below. This is a very versatile sailing yacht with sophisticated navigation systems but equally easy to manage short handed.

Hanalei would be a great boat for a group of adventurers equipped with dive gear, fishing rods, surfboards or even a group of kitesurfers. She would also suit a family or group of friends willing to share the experience of sailing together. The addition of all round canvas and netting make her very suitable for cruising with young children or pets.
